NOK revenue in 2019

> 60  
employees

# IMPORTANT

## LICENCES

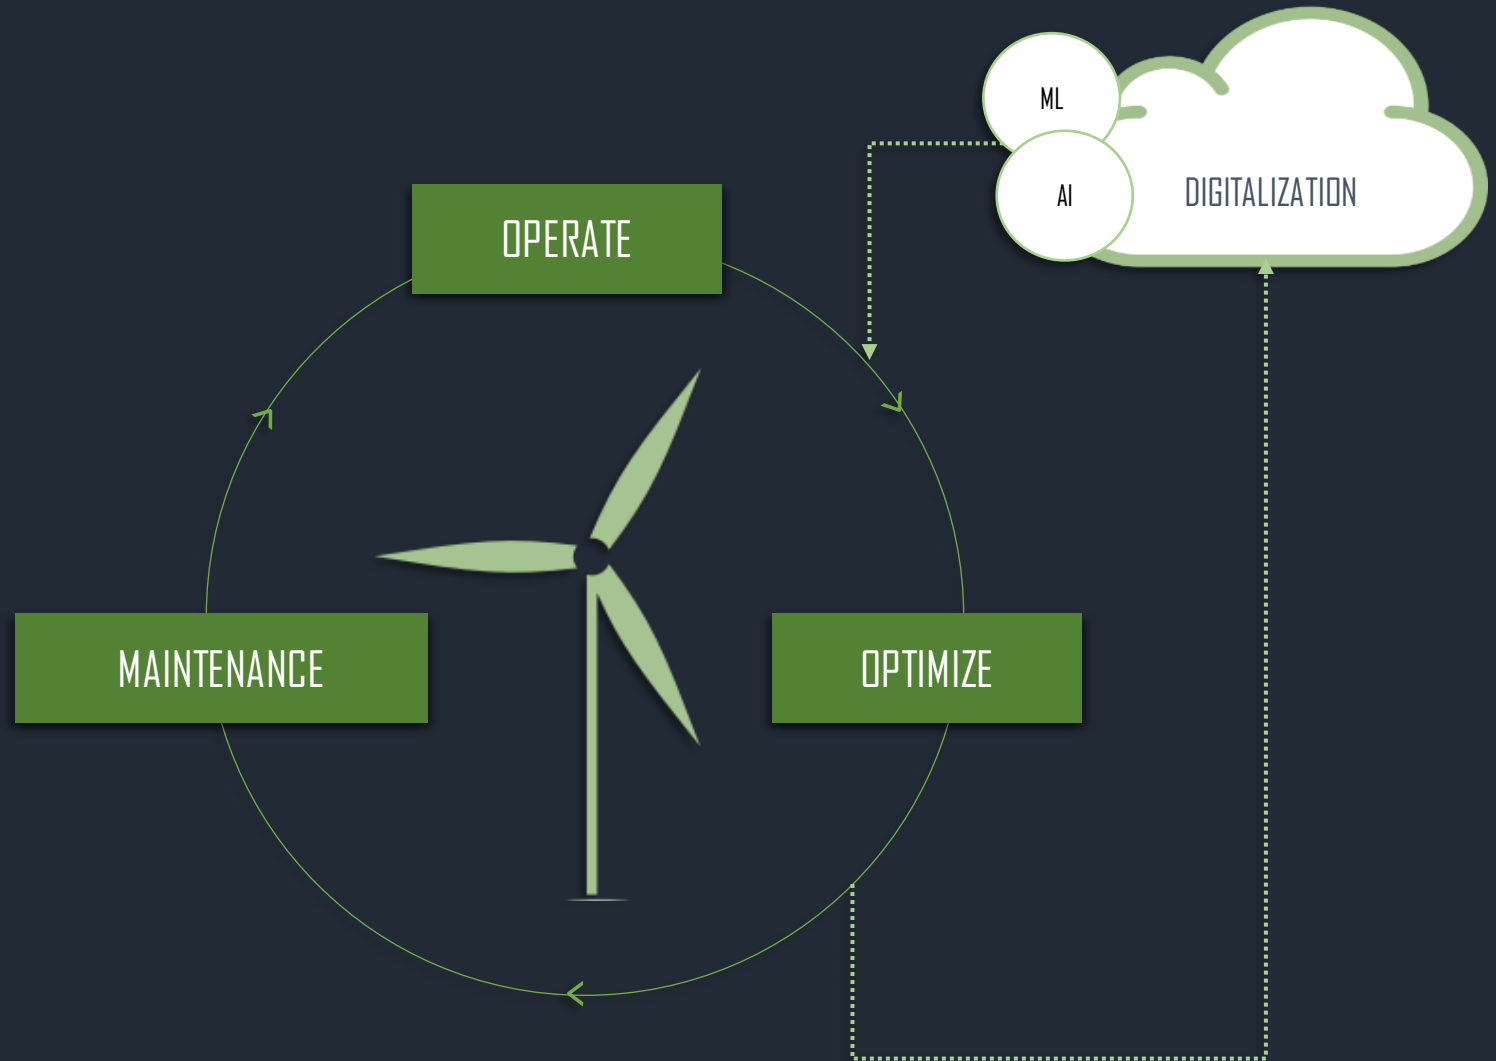

## BUILD (steel and LxWxH)

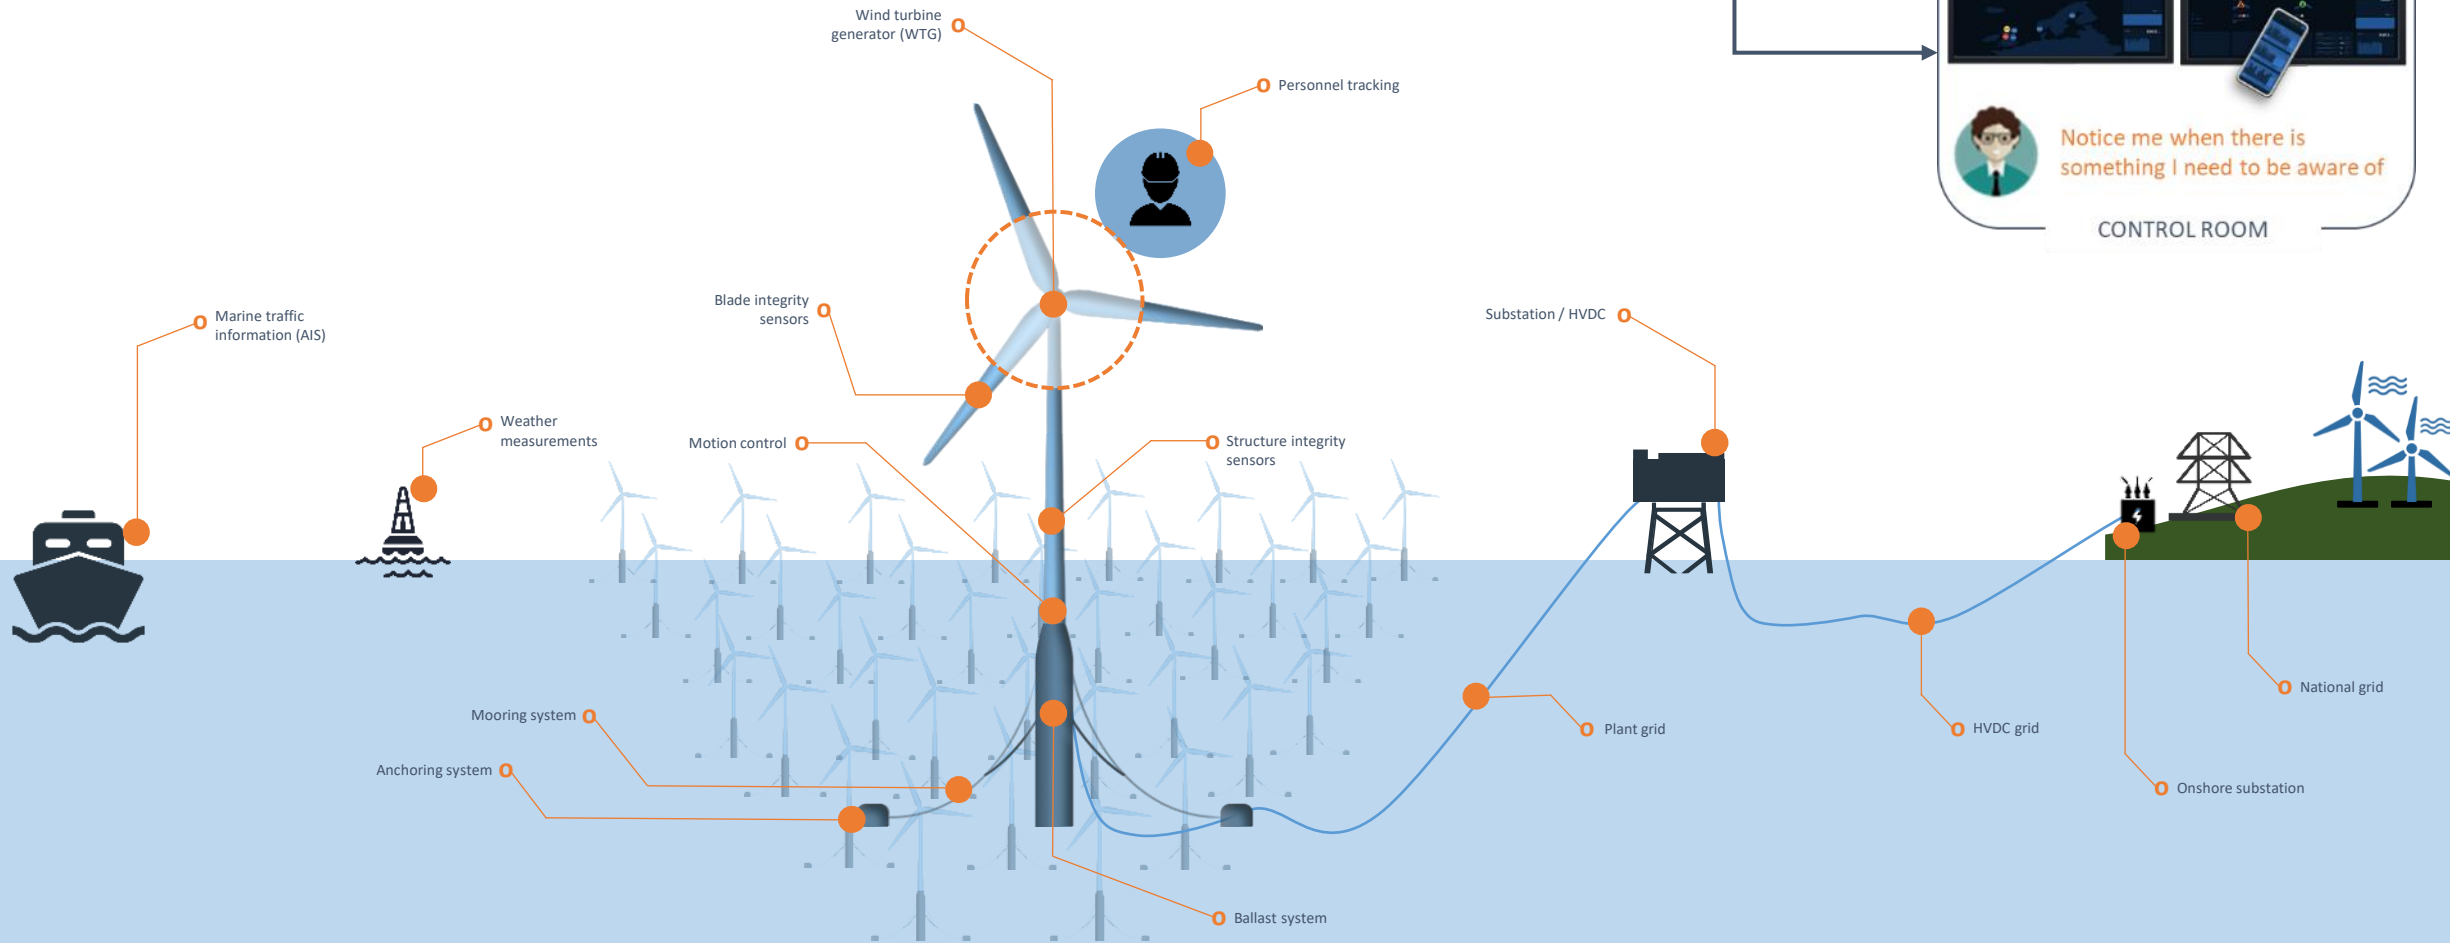

Question; how do you increase safety and optimize your investment for the next 25-30 years?

Optimal production  
with maximum  
asset integrity

# SCADA+ ONE integrated solution for operation and follow up

Connecting various system interfaces

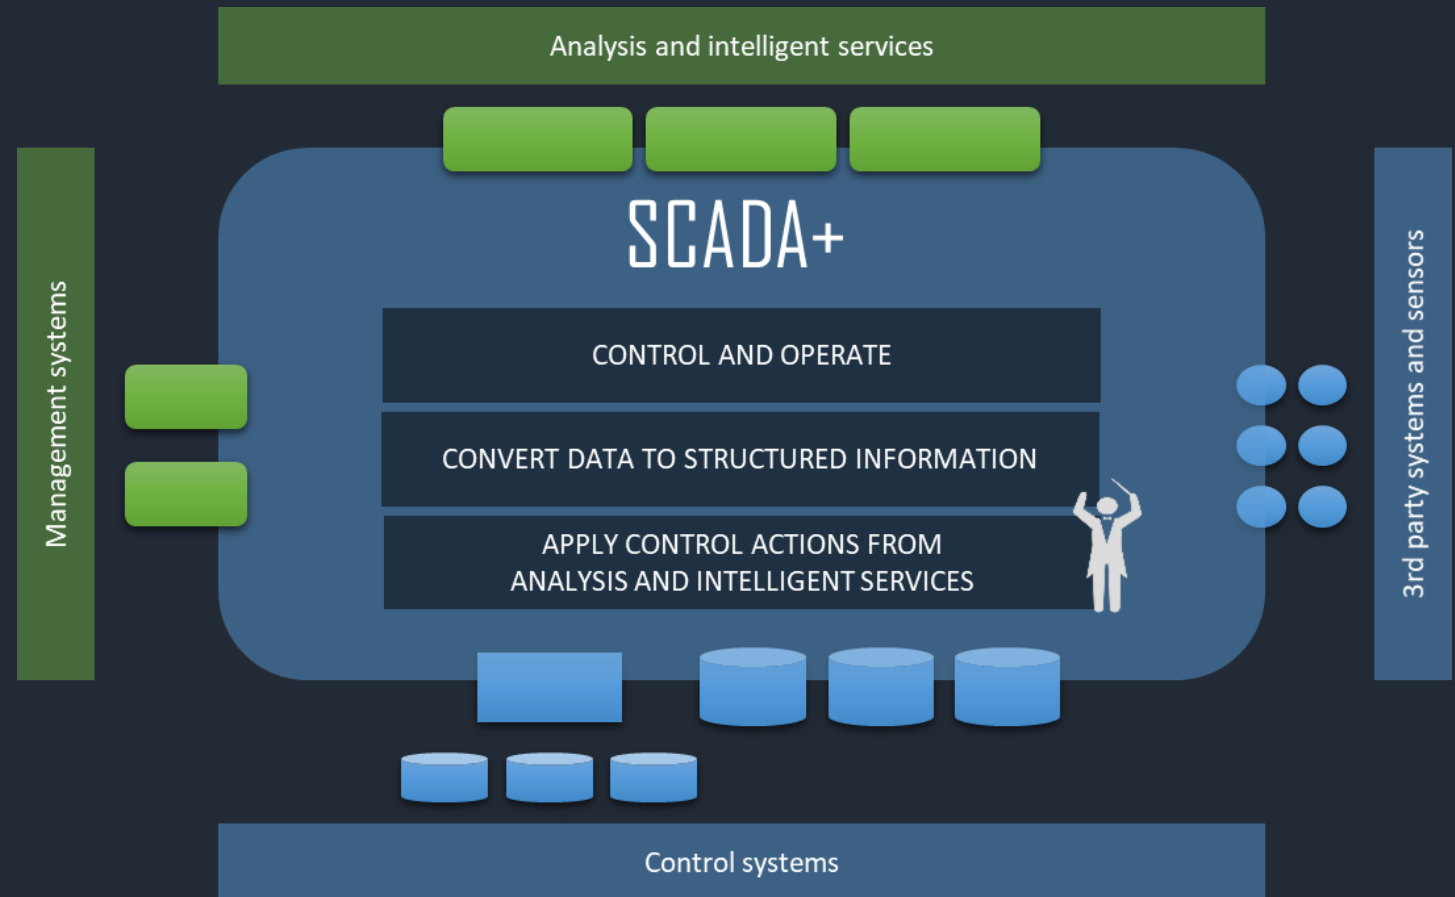

# Next generation of control and automation

Filling the GAP

SCADA+ is an independent solution for operation and follow up of your entire Plant(s)

- improve your production and reduce maintenance cost by smarter operation.

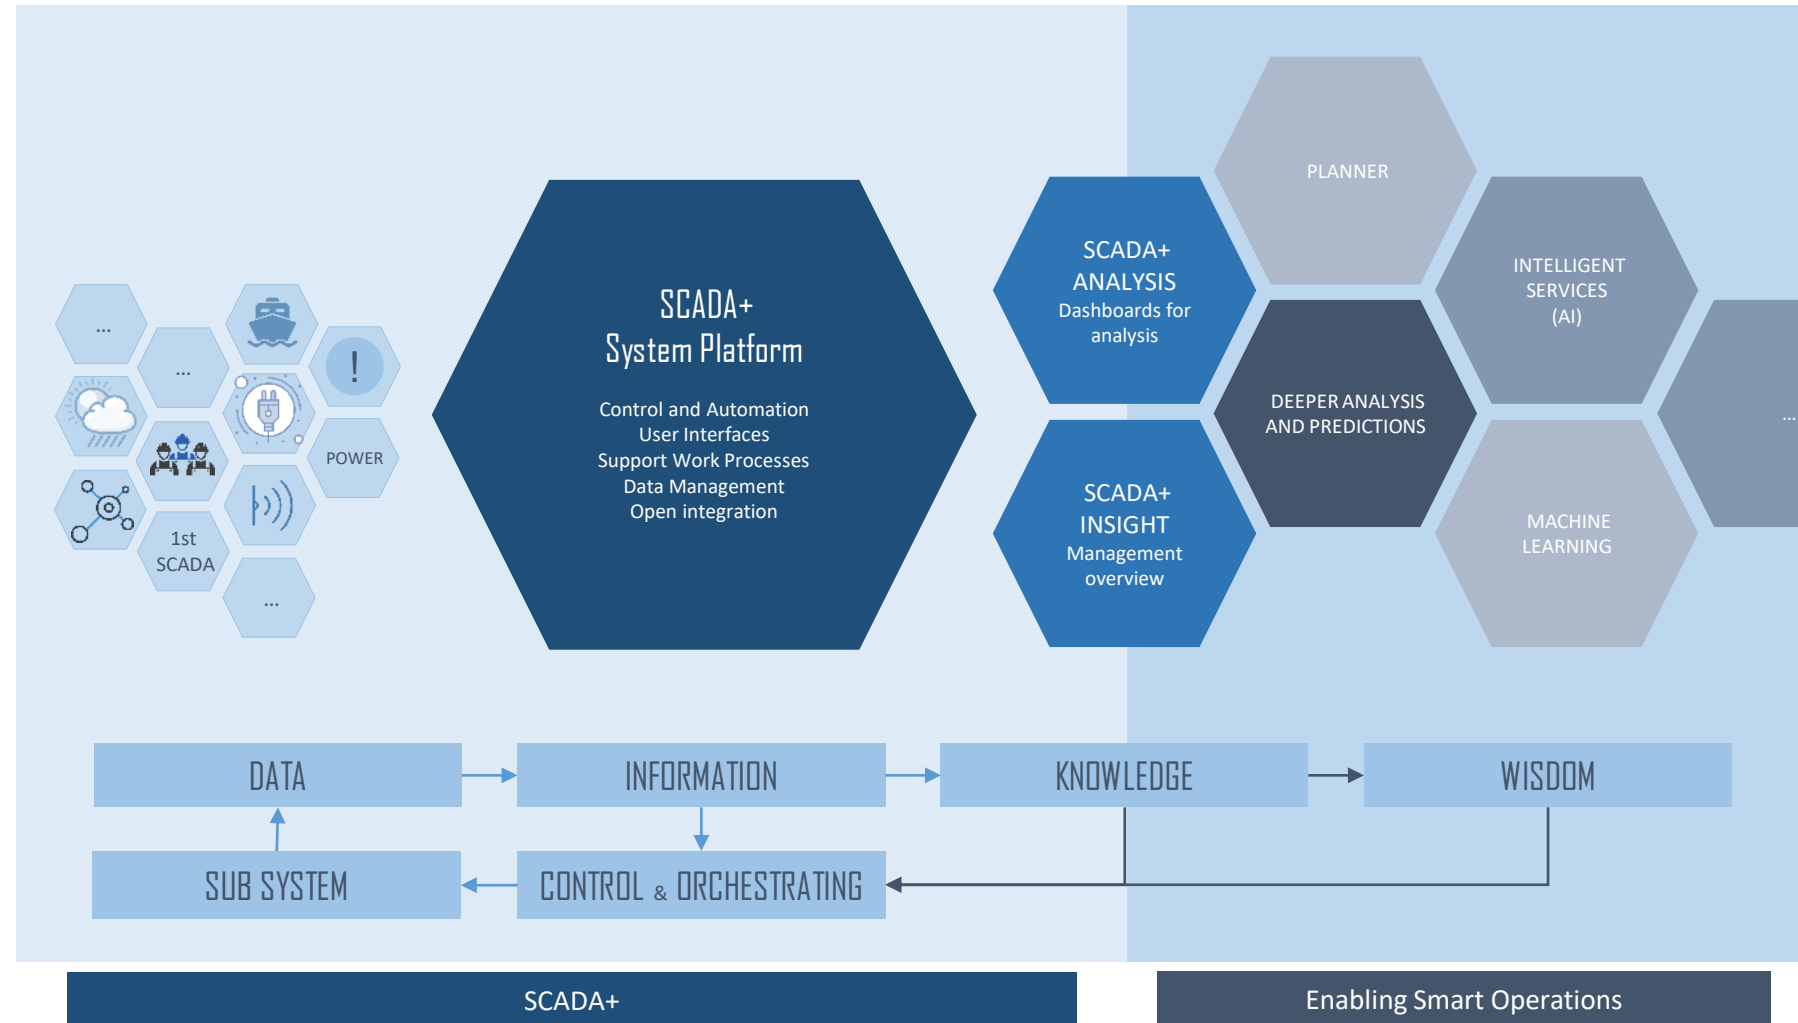

# SCADA+

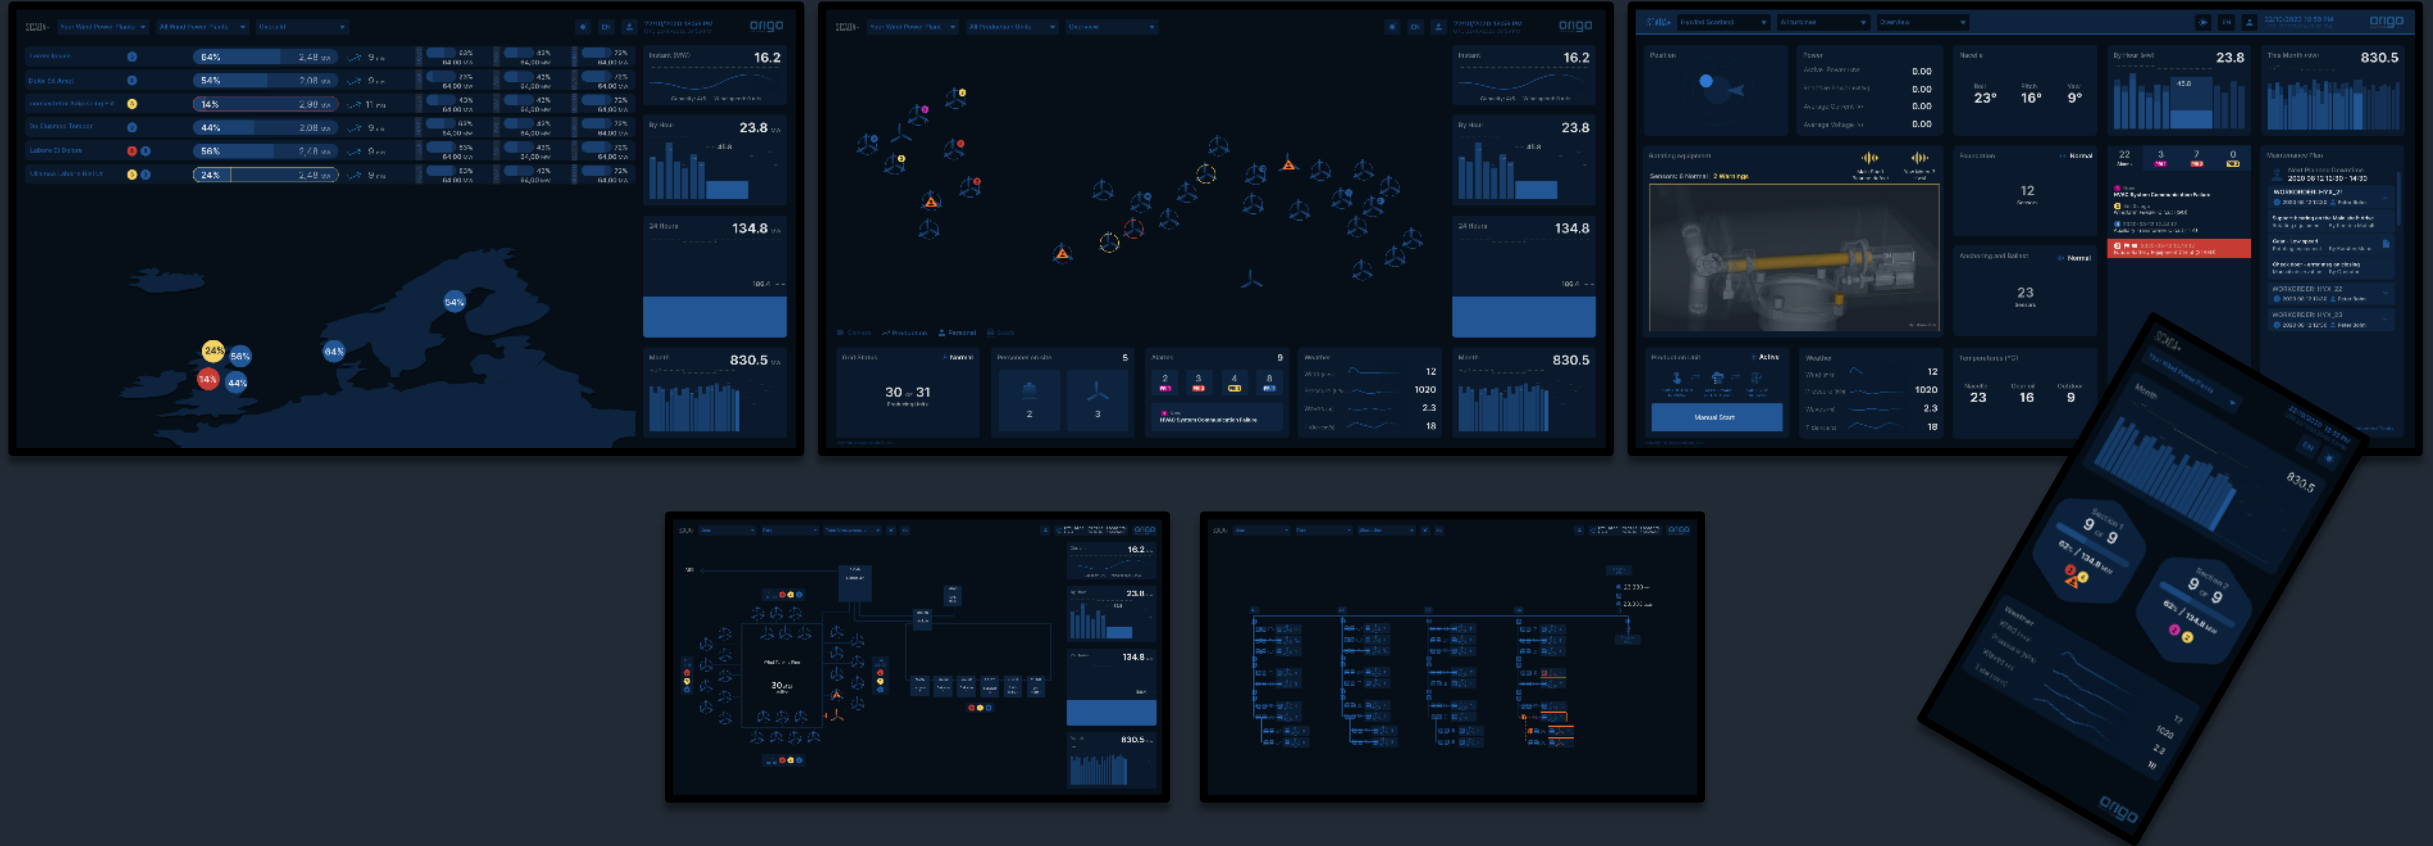

Perfectly Connected

- **Open, Flexible and Scalable System Platform**
- **Control and visualization** through optimal user interfaces
- **Unlimited Data Acquisition and Management** – making data valuable for human and machines
- **Seamless integration of 3<sup>rd</sup> party** control systems, applications, and sensors

# SCADA+

User friendly interfaces for obtaining optimal operation and situational awareness.

Sustainability through safety,  
environmental and asset integrity
